**FOURTH OF JULY REFRESHMENT** stand for rent. Fourth of July celebration at Battle Ground Cheap rent. Apply to J. H. WEST.

## TERRIBLE STORM.

**Sweeps Through Louisville, Ky., With Great Damage.**

By Wire to The Telegram.

Louisville, Ky., June 21.—A terrible thunder storm swept through the city last night, accompanied by high winds. Trees were blown down and several buildings damaged. The lightning struck half a dozen times and set fire to Fitzgerald's grocery store. The flames were extinguished without serious loss. The fire alarm system was badly crippled and the telephone exchange reports serious loss. The wires of the street railway were blown down in several places, stopping the traffic on a number of lines.

## JEALOUSY THE CAUSE.

**Texas, Charged With Shooting His Wife, Makes a Unique Defense**

By Wire to The Telegram.

Washington, June 21.—Campfield, aged 33, a War Department clerk, was arrested this morning charged with shooting his wife. He makes a unique defense. He is a Texan and when questioned by the police said "I was a cow boy ten years and was never known to miss. If I had fired at her, I certainly would have hit her." Jealousy is said to have prompted the deed.

## PHARMACISTS' OFFICERS.

**E. W. O'Hanlon, of Winston-Salem, President.**

The North Carolina Pharmaceutical Association closed its 20th annual session yesterday afternoon in Winston. The Association decided to hold its next session in Morehead City on the third Thursday in June, 1902. Greensboro and Charlotte were put in nomination for the place, but Morehead City got it. The following officers were elected:

President, E. W. O'Hanlon, Winston; first vice president, Henry T. Hicks, Raleigh; second vice president, W. A. Leslie, Morganton; third vice president, G. K. Grantham, Dunn; secretary, A. J. Cook, Fayetteville; executive committee, B. B. Owens, Winston; G. R. Wooten, Hickory; J. M. Scott, Charlotte; W. H. McNair, Tarboro; local secretary, C. G. Branham, Newbern; member of board of pharmacy, elected by the association and appointed by the Governor for a term of five years, E. V. Zoeller.

## TO REPEAL 15TH AMENDMENT.

**THE SCHEME IN THE VIRGINIA CONVENTION.**

**Negro Disfranchisement the Overshadowing Subject in the Virginia Constitutional Convention.**

Charlotte Observer.

Richmond, Va., June 20.—The proceedings today of the Virginia constitutional convention showed very plainly that the overshadowing subject which is to come before it will be the disfranchisement of the negro. There were two resolutions offered and referred to the suffrage committee, proposing to appeal to the other states of the Union to join in a movement for a repeal of the fifteenth amendment.

The first of these was presented by Circuit Judge Thomas Harrison, of Frederick. After declaring that universal suffrage has in the past been safely entrusted to the whites the resolution sets forth that universal suffrage has been attended with great evils in the South. The resolution then proceeds to say that the fifteenth amendment of the United States constitution is wrong, in that it proceeds on the theory that the two races are equally competent of free government. This theory is contradicted not only by the experience of the South, but by the history of the two races since the dawn of history. This convention therefore, ought to inaugurate through the proper channels, the proper steps to its repeal or amendment so that each State may control its suffrage, as its best interests demand; that it is not the purpose of the State to deny the negro any civil rights, nor to disfranchise any negro, who has sufficient free hold estate to give him a permanent and substantial interest in the welfare of the State, nor, if any discrimination is made against him in the right of suffrage, to claim any representation in Congress or the electoral college based upon negro population, but, ipso facto, to surrender it until Congress shall declare what additional representation shall be given to the extent that suffrage is given to the negro. Judge Harrison is one of the most conservative men in the convention.

Another resolution offered by Mr. A. P. Thom, of Norfolk, who provoked the now famous debate on taking of the oath of office, contemplates adopting an address to the people of the country, with a view of securing the repeal of the fifteenth amendment. The resolution directs the committee on suffrage, of which Senator Daniel will be chairman, to inquire into this subject.

A still more radical move to be made on the suffrage question is a resolution which Congressman Flood, of Apomattox, will offer, probably tomorrow. This is essentially the proposition submitted to the Alabama constitutional convention by Senator Morgan. It declares that only whites shall hold offices or such as may be permitted under the constitution which this convention is to adopt, which limits office-holding practically to that race.

All three of these propositions are attracting a great deal of attention, more than anything yet offered in the Virginia convention.

## Town Representation

Boston Herald.

The only excuse attempted to be offered in any quarter for the unjust system of representation in Connecticut is that it is desirable that towns, as such, should be represented. We question very much whether such desirability reaches the extent of being essential. At any rate, it is clear in our mind that if towns cannot be represented without compelling gross inequality of representation on the part of the people, town representation should give way. It is difficult to show how the people are better represented by being associated for that purpose within certain geographical limits, and if it could be shown, the providing it at the expense of giving one set of men more power than is their due in the State legislature would be a great sacrifice to accomplish a small end. When it leads to an enormous abuse, as in Connecticut, which State gives men in one place more than two hundred times the advantage in legislation that is accorded to those in another, it is simply an atrocious perversion of the spirit of our government, which is designed to secure equality of rights among the people.

## THE EXACT STEALAGE GOT AT

**THE AMOUNT STOLEN BY MAJOR MARTIN IS \$16,550.53.**

**Treasurer Lacy Loses \$374.84, Ex-Treasurer Worth \$16,060.04, While Martin Gets Credit for \$115.65 Returned.**

News and Observer.

State Treasurer Lacy was yesterday talking to a reporter of the News and Observer in regard to the correct amount of the stealage of the Penitentiary funds by Maj. W. H. Martin who from 1895 till 1901 was the institutional fund clerk in the State Treasurer's office. The exact figures have not yet been given the public and are contained in the report of the Penitentiary Investigating Committee, consisting of Senator E. M. Arrington, Representative F. M. Shannonhouse and Judge F. D. Winston.

This report has been signed by Messrs. Shannonhouse and Arrington and has been sent to Windsor for the signature of Judge Winston. It is expected back in Raleigh today or tomorrow.

Treasurer Lacy's figures on the stealage, made from the report, shows this to be \$16,550.53. Of this former Treasurer Worth, or Martin's bondsman, are responsible for \$16,060.04. Treasurer Lacy is caught for \$374.84, this being \$115.65 less than expected, as Martin had paid out this amount and taken up the warrants. "This loss I will have to bear" said Mr. Lacy yesterday. "As I have no recourse." Martin did the stealing from Mr. Lacy during the thirty days he was showing the new men in the Treasurer's office the run of affairs.

During the close of this last month Maj. Martin made a big steal in order to get cash in hand and to straighten out the Deaf and Dumb Asylum account. He tore out a check from the back the check book made it out for \$1,249.52 and drew the money from the National Bank of Raleigh. He then deposited \$759.03 in the Citizen's Bank in order to straighten out the Deaf and Dumb account.

This left the major with \$490.49 on hand. From this he is supposed to have paid the \$115.65 for warrants he took up individually and pocketed the balance, \$374.84, which is the sum Treasurer Lacy loses.

Ex-Treasurer Worth has two ways of raising money on Martin's bondsman. The first two years of Martin's service is covered by a private bond of \$5,000 good for all the time that Martin worked for Worth. The last four years his bond was for \$5,000 a year in the Baltimore Surety and Trust Company. As Mr. Worth would inform this company each year, so it is said that Martin's accounts were correct, in order that Martin might renew the bond, it now seems that the company may be only liable for \$5,000 on the last year, even if Martin did steal during the previous years. Ex-Treasurer Worth will claim that the trust company is due for each year's shortage separately, and if this is so then he will not be out such a large sum.

When the money that Martin stole is again placed to the credit of the State's Prison, it will help it out wonderfully in its present stringent financial condition. Demand for this money will be made as soon as the report is filed with the Governor.

## Injunction Against Love-Making.

Chicago Inter-Ocean.

A few days ago Marie Aletta Lent, an elocutionist in Toledo, filed a petition in court praying that John P. Delphey, an attorney, be enjoined from making love to her. Mr. Delphey admits that correspondence has passed between him and Miss Lent in the last year and a half, that they have frequently walked and ridden together that he has visited her frequently at her home and at her studio, and that on such occasions they were usually alone. He further admits that there has been a deal of affectionate conversation between them, but maintains that she has been as solicitous of his attentions as he has been of hers. He further "avows" that after meeting him in a social way a year and a half ago she began calling at his office, sometimes on business, but usually for diversion. On such occasions, he declares, she often requested him to take her driving and to clip from the news-

papers any favorable notices that they might give her. Then, without intimating or insinuating anything that could wound the young woman's feelings or injure her social standing in the least. Mr. Delphey asks that she be enjoined from noticing him or speaking to him henceforth when they meet in society. This ought to be satisfactorily to Miss Lent, if what she was looking for when she filed her petition was the severance of all relations with Mr. Delphey. He has coolly, courteously and promptly taken her at her word. In view of his answer, it would seem that she might have been able to dismiss him without going to law about it. His conduct in the premises is that of a man who would not care to sit on her doorstep after he had been politely but firmly told to go.

Mr. Delphey's attitude will give general satisfaction, we believe, to his sex, inasmuch as it will have a tendency to make injunction proceedings in love affairs unpopular. It is easy to see that serious opposition on this part to her petition would have made him her legitimate lover and might have established a precedent that would have worked to the advantage of young ladies seeking husbands and to the disadvantage of lawyers who are not seeking wives.

## AUSTRIA-HUNGARY.

### An Empire of Aliens Kept Together by Pressure from the Outside.

Baltimore Herald.

History is filled with examples of the struggles of nations to preserve their national integrity. It remains for the empire of Austria-Hungary to present the spectacle of a conglomeration of many people held together by no cohesive force of national sympathies or culture, but by the bracing energy of its neighbors. While Poland was torn in fragments, the Austrian states are continued as a whole by the anxious efforts of the powers.

In spite of the constant attitude of menace, there is nothing more dreaded by the countries of Europe than any widespread convulsion of a territorial nature. If the Czechs, Germans, Hungarians, Bohemians, Slovaks, and the dozen other nondescript nationalities composing the empire of the Hapsburgs were to be permitted to yield to the excentripetal violence of their personal feelings, the whole of Europe would need remapping, and the wars resulting would cost at least \$20,000,000,000.

The Slavs desire annexation with Russia; the Germans are frantic in their support of the Pan-Teutonic movement; numbers of other little states desire independence, and the entire confederacy is at daggers' points. The death of Franz Josef will be a crucial time for continental harmony, and the imprudent aggressiveness of any one great power must bring on the deluge. Germany and Russia are the powers most apt to err after this fashion, but the Russian is very busy with the eastern frontier of his dominion and is little likely to stick his finger in this hornets' nest unless compelled to withstand the demands of Germany. Strangely enough, England and the United States hold the balance of power, and any standing aloof on the ground of non-interest would be a tremendous blunder. Both nations are involved to a great extent in any European conflicts, for it would mean the extinction of one of our best markets.

It is to be hoped that, when the Austrian succession is a pressing question in the world's courts, the Great Anglo-Saxon nations may use their mailed hands to prevent an internecine scramble for the fragments of what was once known as the holy Roman empire.

## NOW WANTS DIVORCE.

### Chinaman Already Tired of His American Bride.

Norfolk Landmark.

Because his American bride has deserted him and treated him with utter indifference, Lin Kong, proprietor of a Chinese restaurant in East Main street now wants a divorce. Lin and Minnie Weistner, who lived in Avon street, were married several days ago, but the woman's change was too much for her, as she appeared next day attired in a fashionable tailor-made suit and this turned her head, so Lin says.

One day after her marriage the Weistner woman, pardon, Mrs. Lin Kong, was back in her old haunts again, and last evening she was found here by her husband of a few days. Lin went over to police headquarters and told his story to Captain Dalton, and his wife later followed him over, but positively refused to live with her Celestial better half again.

Tiring of arguing with the woman, Lin engaged Mr. Charles M. C. Doran as counsel, and will this morning institute divorce proceedings in the Court of Law and Chancery, as he says that he never again cares to see the woman who has caused him so much trouble.

The average man would rather have his wife act like the devil and look like an angel than to act like an angel and look like the devil.

It always seems like a miracle to a man the way a woman will manage a big hat, a long skirt, a bundle, and her religion in a high wind.

## A LIFE AND DEATH FIGHT.

Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death says: "Exposure after measles induced serious lung trouble, which ended in Consumption. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost \$5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat and Lung troubles." Regular size 50c and \$1. Trial bottles free at C. E. Holton's drug store.

## DRS. R. L. MOORE & R. W. WOODWARD.

## and OLD PEOPLE

Bad Circulation is the cause of most of the ills that come with old age. With advancing years there is a decline of strength and vigor—the machinery of the body moves with less speed and accuracy. Because of the weak and irregular action of the heart the blood moves more slowly, becomes impure and loses much of its life-sustaining properties, and muscles, tissues and nerves literally starve for lack of nourishment. A sluggish and polluted circulation is followed by a long train of bodily ailments. Cold feet, chilly sensations up and down the spine, poor appetite and digestion, soreness of the muscles, rheumatic pains, hard and fissured skin, face sores, chronic running ulcers on the lower limbs and other parts of the body—these and many other diseases peculiar to old people are due to a lack of healthy blood and imperfect circulation. Restoration to health must come through the building up and purification of the blood, thus adding strength and tone to the vital organs and quick, healthy action to the circulation.

S. S. S. being strictly a vegetable blood remedy and the best tonic, makes it the most valuable and efficacious of all medicine for old people. It is free from all mineral ingredients, and mild and pleasant in its action. It cures blood diseases of every character, even those inherited or contracted in early life. As the system gets under the influence of S. S. S. there is a marked improvement in the general health, and as richer and purer blood begins to circulate through the body the appetite improves, and there is a softness and elasticity about the skin that you have not noticed for years; sores begin to heal, pains in muscles and joints gradually cease, and you find that it is possible to be happy and healthy even in old age.

Our medical department is in charge of physicians who make a study of blood and skin diseases. If you would like to have their opinion and advice in your case, write them all about it and you shall receive such information and advice as you want. This will cost you nothing. Others have found our medical department of great benefit to them—their cure being much more rapid as the result of some special directions received from our physicians.

Don't be your own doctor when you can get medical advice free. Book on Blood and Skin Diseases mailed to all who desire it.

320-322 S. Elm. **R. G. FORTUNE & CO.** 320-322 S. Elm.

**PHOTOGRAPHIC DEVELOPER.**

One bad feature of metol is that it is prone to poison the skin. Some photographers prophesy that the coming developer is imogen. Hydroquinone should never be used alone, and too much should not be added to metol. Pyro-soda is an excellent developer for plates that have been properly exposed. From them it will produce soft, rich negatives of fine printing quality. Probably the cheapest developer on the market, says the Philadelphia Press, is rodinal, which is a fairly good developer. It is used in one solution and can be worked on developing paper as well as plates. Eikonogen is a good developer which is considerably used nowadays, more frequently in combination with hydroquinone than alone. It is a rather mild developer, giving negatives of extreme softness, and with blue-black tint. One of the most popular of the newer developers is amidol, which is in vogue both for plates and developing paper. On the latter it gives good tones, but they are blue-black instead of pure black. Nowadays metol is seldom used alone. The usual method is to combine it with hydroquinone. Hydroquinone is a rather harsh developer, whose great specialty is the giving of density rather than detail, so that it is a very good blend for metol, whose weak points it makes good. The original developer was pyro, which means a developer in which the agent was pyrogalllic acid. This is a good developer, but stains the hands and sometimes the negatives as well. The old school photographers all use pyro, which is usually used in two solutions, and claim that the negative can be kept in more perfect control with it than with any other developer.

**MUSIC AND DRAMA.**

Rudyard Kipling has dramatized his long story: "The Light That Failed," and the play has been acquired by Charles Hawtrej, the English actor. Jenny Lind's letters to a woman friend living in Italy from 1845 to 1874 will soon be published by an Italian firm. The letters, it is reported, number over 100, and give the prima donna's outspoken and unconventional opinions about the music and many of the musicians of her time. Sada Yacca, the talented Japanese actress who was heard in New York last winter and subsequently appeared with much success in Paris, has been commissioned with her husband, Kawakami, by the empress of Japan to make a careful study of the stage of European countries and select a number of plays suitable for translation in her language. The empress desires to do away with the ten-hour Japanese plays and give them a more reasonable length.

**OF GENERAL INTEREST.**

Merchandise was first admitted to the mails in 1861. The Italian government has completed the installation of telephone wires on the Italian slope of the Alps, which will form part of a line connecting Rome and Paris. William Waldorf Astor's business office is the handsomest in London, and is, in its rich appointment, unique among those of London's rich men, who usually transact their business in offices rather shabby than otherwise. Some estimation of the disorganized and miserable state of the Belgian government railways may be gathered from the fact that recently, while a train was traveling at a moderate speed, one of the carriages dropped to pieces. The passengers were shaken up, and one man had both his legs cut off.

train was traveling at a moderate speed, one of the carriages dropped to pieces. The passengers were shaken up, and one man had both his legs cut off.

**If a Woman**

wants to put out a fire she doesn't heap on oil and wood. She throws on water, knowing that water quenches fire. When a woman wants to get well from diseases peculiar to her sex, she should not add fuel to the fire already burning her life away. She should not take worthless drugs and potions composed of harmful narcotics and opiates. They do not check the disease—they do not cure it—they simply add fuel to the fire. Bradfield's Female Regulator should be taken by every woman or girl who has the slightest suspicion of any of the ailments which afflict women. They will simply be wasting time until they take it. The Regulator is a purifying, strengthening tonic, which gets at the roots of the disease and cures the cause. It does not drive the pain, it eradicates it. It stops falling of the womb, leucorrhoea, inflammation and periodical suffering, irregular, scanty or painful menstruation; and by doing all this drives away the hundred and one aches and pains which drain health and beauty, happiness and good temper from many a woman's life. It is the one remedy above all others which every woman should know about and use. \$1.00 per bottle at any drug store. Send for our free illustrated book. The Bradfield Regulator Co. Atlanta, Ga.

**WINE OF CARDUI**  
**A SURE MEDICINE.**  
HANDSON, VA., Dec. 31.  
I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Black-Draught have done more for me than anything else.  
MRS. CAROLINE EVANS.  
It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the female organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine? Druggists sell Large Bottles for \$1.00.

FRIDAY, JUNE 21.

## GREENSBORO SHOULD TAKE THE BOYS.

Major H. A. London, himself a veteran, says in his paper, the Chatham Record:

What town or city in North Carolina would like to have the annual meeting of the North Carolina Division of the United Confederate Veterans this year? And when?

At the meeting, held at Raleigh on the 22nd of last August, it was decided that the annual meeting this year should be held at such time and place as might be designated by the Division commander, Gen. J. S. Carr. It has been suggested that if the encampment of the State Guard is held at Wrightsville it might be well to hold the Veteran's meeting immediately thereafter and use the tents that are used by the State Guard. It is urged in objection to this that the meeting should be held in a more central part of the State, so that the veterans could attend without much expense. Some of the public spirited citizens of Greensboro wish the meeting held in their progressive city, which is as near the centre of the State and as accessible as any other place.

Our State reunions should be grand gatherings of the veterans, for very few are able to incur the expense of attending the reunions of the entire South, which are held at a great distance from us. As this is an "off" year, when no election will excite our people, extra efforts should be made for a rousing reunion of North Carolina's veteran heroes.

Cemrades, what say you?

Of course Greensboro is the place the veterans want to come, and we want 'em too. Come up Major London and make arrangements.

## Arrested for Embezzlement.

Danville Free Press.

Mr. John T. Sturgis who came to Danville in the interest of the International Correspondence school of Scranton, Penn. was arrested Saturday night and incarcerated on a charge of embezzlement of \$35 of the school funds. George F. Bradley, of Alexandria, who is employed by the company preferred the charges. Mr. Sturgis claimed that the company owed him for services and that the fund which he collected and refused to remit was less than his commission. He stated that the company still owed him. For lack of any evidence that would convict the prisoner he was dismissed and the cost of his case were charged up to Bradley.

On leaving Mr. Sturgis thanked Jailor White for his extreme kindness to him during his imprisonment in the Danville jail. He declared the kind hearted jailer, as one of the best of men. It is Mr. Sturgis' intention to leave this city for Charlotte, N. C., where he will engage in other occupations.

## Thrashed in Jail.

Monroe Journal.

A white man by the name of Freeman, got a severe beating in jail last Saturday evening. He had been drinking and carousing around town for a day or two and finally to insure good behavior was locked up. But this didn't prove altogether satisfactory for he tried to engage one of the inmates in conversation and the man, who is said to be not quite sound mentally, refused to talk. Freeman got mad and cursed him. The taciturn man got mad also, jumped on Freeman and it is said that when help arrived, had well nigh pounded him into insensibility. And as a climax to this hard luck he was brought before the mayor and given 30 days on the chain gang.

The work of the police judge is fine art.

It's a poor genealogical tree that bears no dates.

A good memory is one that enables a man to forget unpleasant things.

No, Maude, dear, changeable silk is not always the kind you can take back.

The proprietor of a small country store displayed in the window of his store a card bearing the following inscription: "Hams and cigars, smoked and unsmoked."

## BLIND TOM COMING.

Will Be at the Academy of Music Next Thursday Night.

The ladies of Centenary Methodist church have made a contract with the celebrated "Blind Tom" to appear at the Academy of Music next Thursday night, the 27th instant. In speaking of Blind Tom, the New York Herald says:

"After a long period of silence, Blind Tom, the negro pianist, appeared last evening in some of his familiar and pleasing performances. At the hall of the Young Men's Christian Association he gave an entertainment that thoroughly satisfied an audience. The great majority of the selections were played in the peculiarly pleasing way that this most original of performers has long since made the world familiar with. His imitations, compositions and peculiar tricks with the instrument all met with a cordial reception and provoked rounds of applause."

## "A Little Boy"

Mr. C. D. Higgins, agent at this place for the Union News Co., received a letter this morning from a young man who wished to enter the employ of the News Company. In his letter the young man says of himself: "I am a little boy nearly 17, and am 6 feet and 5 inches high." If he reaches this height at the age of seventeen where will he be when twenty-one?

## Pharmacist Paralyzed.

Mr. Charles G. Horton, of Mt. Airy, passed through the city this afternoon, returning home from Raleigh where he has been for some time. Mr. Horton is a prominent pharmacist of Mt. Airy and was some time ago, paralyzed. He has been in Raleigh in the hope that he could be benefited there.

## Death at Benaja.

Mr. William R. Rankin went to Benaja this morning, called there by a message announcing the death of his cousin, Mrs. H. L. P. Watson, of that place. The funeral occurred this afternoon. Mrs. Watson is the mother of the station agent at Benaja.

## Didn't Want to Study.

Prof. E. J. Forney, of the State Normal College, who started a shorthand school in Winston this week, has closed it. The patronage was not sufficient to justify its continuance. He found that a majority of the young people who attended school there did not wish to study during vacation.

## Got His License.

Mr. C. R. Thomas, of Thomasville, passed through the city last night returning from attending the sessions of the Pharmaceutical Association at Winston. He was among the number who received their license this year.

## Mr. Cobb Better.

Mr. Howell Cobb, proprietor of Hotel Guilford, who has been at Hot Springs, this state, for some time recuperating, is much better. He hopes to have entirely recovered his health in a few days.

## To Attend Celebration.

Rev. Thomas Bell went to Oxford this morning to attend the celebration at the Oxford Orphan Asylum tomorrow of St. John's Day. Mr. Bell goes in his capacity of Grand Chaplain.

## Over \$100 Already Contributed.

Several friends of Messrs. Pitts & Monroe, who were burned out Tuesday night, have contributed various amounts towards assisting them to rebuild. Amounts aggregating considerably over one hundred dollars have already been subscribed. No soliciting will be done. Any one who wishes to contribute, can leave their contribution at The Telegram office.

## THE PURITAN LAWN PARTY TONIGHT.

The Busy Bee Society of St. Andrew's Church, South Greensboro, will serve pure cream in Puritan style and pilgrim cake with lemonade to match. Come one, come all, to the Vernon place, corner of Asheboro and Lee streets tonight, Friday night.

L. L. L. LAWN PARTY TONIGHT. Be sure you attend the lawn party given by the Loyal Temperance Legion in Prof. Claxton's yard on "Piety Hill", tonight from 8 to 11.

It is sometimes a ticklish job to live on tick.

It doesn't take a horse woman to drive a bargain.

Adam was the first man to grow nervous about the eve of his wedding day.

W. A. FIELDS, Proprietor.

**LAXAKOLA**  
THE GREAT  
TONIC LAXATIVE

At some time, if not habitually, you have sour stomach, indigestion, biliousness, constipation, bad breath, dizziness, inactive liver, heartburn, kidney troubles, backache, loss of appetite, insomnia, lack of energy, bad blood, blotched or muddy skin, or some of the other symptoms and disorders which tell the story of bad bowels and an impaired digestive system. Laxakola will cure you. It will clean out the bowels, stimulate the liver and kidneys, strengthen the mucous membranes of the stomach, purify your blood and put you "on your feet" again. Your appetite will return, your bowels will move regularly, your liver and kidneys will cease to trouble you, your skin will clear and freshen and you will feel the old time energy and buoyancy.

Mothers who had been seeking the proper medicine to give their little ones for constipation, diarrhea, colic and similar troubles, find Laxakola an ideal medicine for children. Children like its taste and ask for it. It keeps their bowels regular without any pain or griping, and acts as a general tonic at the same time. It will assist nature, aid digestion, relieve restlessness, clear the coated tongue, reduce fever, cause refreshing, restful sleep and make them well, happy and hearty.

Laxakola, the great laxative tonic, is not only most efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price. No other remedy gives so much for the money. At druggists, 25c. and 50c., or send for free sample to THE LAXAKOLA CO., 132 Nassau Street, N. Y., or 356 Dearborn Street, Chicago.

## WHO IS THE BOARD OF HEALTH?

MR. J. R. WHARTON ASKS A FEW PRACTICAL QUESTIONS.

The Condition of the Northern Part of the City is Set Forth—What Are the People Going To Do About It?

To the Editor of The Telegram:  
Dr. Smith's graphic account of present health conditions in North and West Greensboro, as well as outside of the city, was certainly not an over-statement of facts. Indeed, it would be difficult to exaggerate while depicting the appalling conditions on this territory. What it may be in the fall God only knows.

Perhaps a short account of what has been done, and especially what has not been done, to remedy the evil may not be out of place.

A Sanitary Board of Health, appointed as prescribed by the amended sanitary law, having full power to abate anything prejudicial to health, visited the section complained of, and reported; first, the causes of the trouble and then how it was to be remedied. They were accompanied by Dr. Lewis, State Superintendent of Health and their report was without a dissenting opinion. Their report was in part, that there were abundant cause of malaria along the waters of North Buffalo from Revolution Mill to the water works.

They ordered thorough drainage of this land, cleaning up all vegetable matter along said creek, removing the dam at the Steel and Iron furnace, and building a reservoir at the end of the sewer from the Normal College. The Board took little or no stock in the idea that the sewer was the cause of malaria, but out of abundance of caution ordered the reservoir to be built. This was done five or six weeks ago. Only liquids come from the sewer. The steel works dam is now being taken down. Ditches have been dug from the Finishing Mill to carry off the starchy matter. But so far little has been done in that part of the land most productive of malaria, and for the reason set forth below:

Willing if possible to save the Revolution dam, which saves some expense in raising water about six or eight feet to fill the reservoir, Prof. Bandy, an expert engineer, was employed to make a survey and report at a subsequent meeting as to whether the drainage could be done without taking down the dam. This was thought necessary, as Mr. Pierce, the regular employed engineer of the Revolution Mills, had given his opinion, unsupported by facts and measurements, that it was not necessary to take it down. After taking levels, Prof. Bandy stated to the Board that while he thought it would be best that the whole dam should come down, it might greatly relieve the situation if five feet were cut down. The Board ordered this done, but up to this writing the dam stands, and not an intimation has as yet come from the owners that they will comply with the order. They constitute themselves the sole judges of the reasonableness of the order, because, forsooth, while it does not prevent them from running all the water in the creek through their mills, it would cost them something to raise the water needed about eight feet. Much of the swamp land at and near the head of the pond is only a few inches above the creek when the dam is full, and if dug, would be full of stagnant water and would soon fill up by freshets in the creek. This is the reason assigned by Prof. Bandy for lowering the dam so as to give the necessary drainage at the head of the pond.

The grand jury at last term of court found a true bill against the Revolution Mills for maintaining a nuisance, and a day was set for trial. The mill owners asked for a continuance, which was granted till next August court, on their promise to do every thing in their power to abate the nuisance. Nothing was lacking in the profuseness of the promises. The owners had opened up a little eight inch pipe about the time the jury returned a true bill and were doing a good deal of cleaning up after the water got down low enough to reach the bushes on the creek channels.

The court adjourned on Friday, I believe and lo! and behold! the eight inch pipe was plugged up the same day and on Sunday following the dam was full of water backing up to the Steel Works bridge and by reason of a rain, overflowed the very territory which Mr. Pierce says can be drained without taking down the dam.

Without rain it takes about eight days for the pipe to lower the water, six feet and with rain it would fill up with a twelve inch pipe open.

Now, my friends, I wish to ask a few practical questions:

Who is the Board of Health—the one recently appointed, or the mill owners? If the latter, then why play the farce of pretending to have a Board of Health and stand by and see their orders spit upon? If the former are the real Board of Health, to whom the sick and dying look for relief for the terrible state of things now prevailing, why should their orders be nullified in order to save a small expense?

On the one hand are men selected for their peculiar fitness for discharging the duties of their office. On the other, men who set up their inept opinions to save a sum of money. If it were a question of doubt even, who should have the benefit of the doubt—the mill owners, who can send their families to health resorts, or the suffering hundreds, many of whom cannot get away for want of means?

It would seem to be Mamon vs. health, life, and the pursuit of happiness. What are you—the people—going to do about it.

J. R. WHARTON.

## TRIES TO COMMIT SUICIDE.

Woman Takes Two Ounces of Laudanum, But Prompt Work Saves Her Life.

In The Telegram yesterday mention was made of a report being current that some one in the western part of the city had taken an overdose of laudanum. The facts in the case are as follows:

Mrs. J. H. Spivey, who lives on Lithia street, yesterday morning about eight o'clock went to a store on Walker avenue owned by Mr. J. H. Prince and purchased a two ounce bottle of laudanum. This drug she afterwards swallowed. Some one saw her take the deadly dose, and reported the fact. The empty bottle was found, a doctor sent for, and the woman given an emetic. The services of Dr. Roberson were secured, and when he arrived on the scene the emetic had taken effect. Enough of the drug had, however, been absorbed into Mrs. Spivey's system to render her in a dangerous condition. The doctor promptly administered antidotes, and today she is out of danger.

Mrs. Spivey has for some time been in poor health, and it is thought that in a momentary spell of despondency she took the action that so nearly resulted in a fatality.

## ALL SHOULD KEEP OFF.

Railway Men Sit on the Steps at the Depot and Why Shouldn't Others Do so Too?

There is a city ordinance forbidding any person from sitting on the steps at the Southern depot. The police keep loafers from sitting on these steps but many of the railway men persist in sitting there and thus a bad example is given the public, who can see no difference in a railway man's sitting on the steps, and in any other person doing likewise. The officers say that this action on the part of the railway men gives them a deal of trouble.

## Col. Barringer to Appear.

Col. J. A. Barringer returned this afternoon from High Point, where he has been to look into the charges brought against the chief of police and other prominent citizens of that city. A detailed account of which appears elsewhere. Col Barringer will appear for the defendants. He says that High Point is very much wrought up over the occurrences, and that there will be a very large crowd there tomorrow to attend the trial.

## The Governor at Wilkesboro.

Governor C. B. Aycock passed through the city last night returning home from Wilkesboro, where he delivered an address Wednesday night at the commencement exercises of the Blue Ridge Institute. He was greeted by a large and enthusiastic gathering, and the occasion was one to be remembered.

## For Greensboro City Hall.

High Point Enterprise.  
Mr. A. V. Sapp, secretary and treasurer Piedmont Table Co., has been awarded the contract for furnishing the new city hall at Greensboro with tables, desks, chairs, hall racks and in fact every article of furniture needed. Mr. Sapp will do the work well.

## The Lawn Party Last Night.

The Southside lawn party, given last night on the lawn of the Graded School was well patronized, and a good sum was realized. About eighty dollars was taken in last night, and more will be collected. It is thought that the total amount will reach one hundred dollars.

## LIVELY TIMES IN HIGH POINT.

DETECTIVE CALLS A CITIZEN A LIAR AND BLOWS FOLLOW.

The Detective is Lodged in Guilford Jail—The Citizens of High Point Pass Resolutions Condemning the Hamner College.

Deputy Sheriff Jones spent yesterday in High Point serving warrants sworn out by Prof. McKnight and Miss Snyder, of that place, as a result of the recent sensational developments there. Although the serving of warrants was Mr. Jones' real business there, he came in handily later on, in arresting and bringing to Guilford jail, a white man claiming to be a detective, who for several days has been in High Point in the employ of Prof. McKnight. The facts as gathered from Mr. Jones last night are these: The young man claiming to be a detective registered a few days ago at the hotel in High Point as "J. A. Shelton, Tennessee," and proceeded to nose around searching for information that would lead to the vindication of Prof. McKnight from the charges of immoral conduct recently brought against him by High Point's chief of police and other prominent citizens. The people soon ascertained the object the young man had in view, and consequently watched him with suspicious eyes. Yesterday afternoon a young man named Ed Fields called Shelton a detective, whereupon the latter said that who ever called him a detective was a liar. Fields immediately struck him; Shelton again repeated his former statement, and again Fields pummeled him. This time Shelton reached for his pistol, and would have made things lively, but he was disarmed, after a short struggle, by several of the citizens.

He was turned over to the officer on the charge of carrying concealed weapons, and upon being searched by the officer he was found to have in his possession, in addition to the pistol, a pair of knucks. He was tried before a magistrate on the charge of carrying concealed weapons, and was admitted to bail in the sum of \$700, in default of which he was sent to jail. He was brought to this city last night by Deputy Jones, assisted by Mr. John W. Merritt, who was in High Point yesterday.

When arrested he gave the name of J. A. Sprinkle, claiming Marshall, Madison county, as his home, and stating that he was a deputy sheriff there. He begged Mr. Jones manfully not to put him in jail, but there was no help for it, to jail he had to go. He was this morning identified by J. M. Bailey of the marshal's office, who knew him in Marshall, and who also knows his family.

It is said that he belongs to a detective agency in Louisiana, and to this agency Prof. McKnight applied for a man to come to High Point to work up the case. This agency sent word to this young man, and he went to High Point, but the enterprising citizens of that burg were not slow in discovering what he was there for.

Deputy Jones while in High Point yesterday, served warrants on nine persons, and summoned nineteen witnesses to appear in this city tomorrow before Squire Wolfe. At this trial, it said, a large portion of the inhabitants of High Point will be present. Feeling against Prof. McKnight runs very high there, as is witnessed by the following resolution passed by a meeting of the most influential citizens of High Point yesterday. The resolution is as follows:

"Whereas, The existence in our midst of the Institution of Healing, presided over by one Harry McKnight, is having a very demoralizing influence in the community and causing a great deal of trouble in our heretofore peaceful town, and, whereas, the Secretary of State has refused to grant a charter to said 'College' on the ground that same was illegal and pretentious and, whereas, it is believed that the further conduct of said 'college' here is demoralizing and tends to a breach of the peace, therefore be it

"Resolved, That the said institution is condemned in the strongest terms and we believe that its continued existence in our community is demoralizing and harmful."

## Fell From Bicycle and Sprained His Ankle.

Prof. W. F. Alderman on Wednesday took a bicycle ride, going about three miles in the country. On returning, in some manner he fell from the machine, spraining his ankle. He was not seriously hurt, but will be laid up a short time. At the time of the accident he was riding with only one hand on the handle bars, and this assisted in rendering the accident possible.

It is because we know how, and take pains with our work, have every little detail as it should be. Colors are kept perfectly fresh and do not fade. Plain shirt waist 10 cents.

## Greensboro Steam Laundry

**MR. STUBBS' POSITION.****He Explains Why He is to Be Traffic Manager of Harriman's Roads.**

San Francisco, June 20.—J. C. Stubbs vice president of the Southern Pacific, whose appointment as traffic manager of the vast system of railroads controlled by the Harriman interests as announced from Chicago, has arrived here. In speaking of the innovation to be introduced in railroad methods by the creation of the position to which he has just been appointed, Mr. Stubbs explained the matter by saying that Mr. Harriman had been considering for some time the feasibility and practicability of divorcing the traffic of the lines he is interested in from the other affairs of the road. He has talked over the scheme with gentlemen who helped to frame the policy and direct the fortunes of the Union Pacific and Southern Pacific and has evolved a plan which, in Harriman's opinion, ought to accomplish the heretofore impossible task of harmonizing the interests of the several Harriman roads. As Mr. Stubbs puts it, it is a plan to bring about a unification of interests with a reduction of friction and the elimination of unnecessary competition without consolidating the properties under one management. Under this plan one man is to have entire charge of the traffic of the several corporations and in order effectually to divorce the traffic will report directly to the board. This position of power and responsibility, comparable to no other in the history of railroading, was offered to Mr. Stubbs and he accepted.

**ATLANTA OFFICER KILLED.****Patrolman DeBray Shot by a Negro Whom He Was Pursuing.**

Atlanta, July 20.—Patrolman E. H. DeBray was shot and instantly killed tonight near the corner of Holderness and Gordon streets, in the West End. His murderer was a negro, who has not been captured. It is believed that Officer DeBray was decoyed to his death. One man, a negro named Hammond, who sent the officer to the place where death was dealt him, has been arrested.

DeBray was notified by the negro Hammond that there was trouble at the end of the car line on Gordon street and immediately hastened there. At the corner Holderness and Gordon DeBray found three negroes presumably in a row. He started to arrest the three but one of them showed resistance. The officer drew his revolver, but the negro said he would give up. DeBray put his pistol away, whereupon the negro drew his, and as he ran fired two shots at the officer, both however, missing him. The patrolman then assumed the aggressive and fired at the fleeing negro, but without effect. Suddenly the negro turned and fired at DeBray, shooting him through the neck, just under the chin, killing him instantly. The trio escaped, but the negro who had given the information regarding the fight was arrested. DeBray had but recently requested a transfer to the West End district in order to be near his wife, who was ill. The entire police force was at once notified of the murder and a wagon load of reserves was sent to West End to work on the case.

**Let Them Be Decent.**

New York Sun.

There is something almost gresome in the sight of the lawyer for the prosecution in a murder trial congratulating the lawyer for the defense over his efforts to get his man off. And the impression is only strengthened when the lawyer for the defense congratulates the lawyer for the prosecution over his brilliant efforts to send the accused to the electric chair. It is improper that these demonstrations should take place in the presence of the judge, the jury, and above all of the prisoner. Do these men of law imagine that the most important thing that a capital trial is the opportunity it affords them to display their talents? Technically lawyers are educated gentlemen. As such they not observe the proprieties, and reserve such demonstrations of reciprocal esteem for their private meetings? They are quite out of place in a courtroom. Let them be decent, and if they can't be that, let them be as decent as they can.

**THAT TIRED FEELING.**

You have is caused by worn out digestive organs. "Coleman's Guarantee" heals the parts, aides digestion and positively cures all forms of Dyspepsia. Thousands of cured people recommend "Coleman's Guarantee" as an honest medicine. Price 50c large bottle, at druggists.

Sold by John B. Fariss, Druggist. Samples Free.

**What Did He Expect?**

London Spare Moments.

A gentleman took a house in a London suburb which proved to be of the usual modern jerry-built order of architecture, so much that one night the rain came through the roof and regularly swamped the place. The gentleman was naturally angry, and when the landlord called for his rent the tenant exclaimed indignantly:

"I say, it is too bad; the other night the rain came through my roof and gave me a regular shower bath. You really ought to do something."

"Ought to do something," growled the landlord, who was a very surly individual. "What are you complaining of? Do you expect me to provide you with soap and towels, too?"

**A Sad Accident.**

Lenoir Topic.

Geo Andrews was killed Sunday night by having a horse to fall upon him. The father Avery Andrews was going to his sister's home to prepare for the week's work.

The horse which they had been riding was blind and as the night was dark the father dismounted and was leading the horse along when it slipped into a gully and fell upon the boy, killing him instantly. Mr. J. W. Suderth was aroused by the cries of Mr. Andrews and helped to prize the horse off the boy.

The corpse was taken to Little River for interment.

## THE HOUSE BEAUTIFUL.

## Chat About the Newest Ideas in Summer Furnishing.

Some most attractive new ideas in the colored bordered summer curtains, mentioned before in "The Record" have just been exhibited the past week. These are in delicately pretty colorings decidedly shading towards the pastel in yellow, green, blue and pink.

Waterproof furniture for porch use is new, economical and attractive, too. Grass-woven rugs are now much used for furnishing the same place, too, and give a very cozy effect. They are very reasonably priced and come in quite pretty effects.

The "high-boy" and "low-boy" of colonial days are very prominent among the displays of antique furniture. The first named resembles a narrow chiffonier set up on legs, while the latter is not unlike a many drawered table, in fact, it is much used by fashionable women for a sewing or boudoir table. The modern replica is in most cases quite as ancient in appearance, often as beautiful and better made than the pieces.

Quaint old bridal chests modeled after antique designs in flat Norwegian carving, old Flemish or Spanish designs, etc., are the sine qua non of sweetness for the bride-to-be to possess these days. In their travels during the present season a prospective fall bride hunts through all the out-of-the-way antique shops expectantly hoping to secure a treasure, heavily metal-bound and hasped, cheap. One New York manufacturer has reproduced a charmingly quaint old Norse model at such a marvelously reasonable price as to create a decided sensation and consequent rush.

A very good suggestion, coming as it does from a most artistic and exclusive decorator, is that the average housewife should be careful, in her endeavor to keep in line with the prevailing craze for quaint and old-timey furnishings, she does not overdo the matter and get grotesque effects instead. Simplicity of outline is a fundamental principle of all colonial furniture, which combined with a rich, quiet harmony of coloring and breadth of treatment gives the desired result.

For summer use nothing is more attractive than the beautiful Japanese porcelains as ice bowls, lemonade bowls, ice cream and tete-a-tete sets, salad bowls, and cereal and fruit sets.

An exceedingly dainty summer cushion cover is of cream white heavy linen, worked in a clover leaf design in prettily shaded greens and finished with a heavy green wash silk and cord. Of course, it must be made to slip on and off to launder.

Pure white rooms, everything to the smallest detail pure white, are peculiarly attractive as summer bed rooms, being cool and charming at all times.

When a woman is very positive she is never certain.

The longer a man lives the more he has to live for and the more he has to live without.

When a man gets married there is at least one woman that he loses all his influence with.

## "Cuban Facts to Look At."

Brooklyn Eagle, (Ind. Dem.)

Cuba will have to frame an election law. That law will have to be acceptable to the American authorities. An election will then have to be held under it. That election will determine whether the law is a good working instrument or not. The election will have to be free and fair. If it is controlled by violence or corruption, it will have to be set aside. Should all these tests be passed the government will then have to be put on trial or experiment, to see whether it is "stable" or not. Should it prove so, that government will then have to propose and adopt a treaty embodying in detail all the provisions in the Platt amendment. That treaty must then be submitted to the Senate of the United States, which must ratify it by a two-thirds vote. All this done, the propriety of withdrawing the American troops will be a subject of which consideration will be in order.

Each one of these steps will require time. All of them put together will require considerable time. The probability of every one of them being successfully taken is small. The possibility that the failure rightly to take any one of them may require all of them to be begun over again is apparent. The likelihood that one or two of the steps may require several attempts is manifest.

## The Achievement at Buffalo

New York Press.  
The achievement that impresses every beholder at the Pan-American Exposition at Buffalo is not the aggregation of exhibits of home ingenuity or worldwide character but the amazing triumph of American art that the general scheme of grounds and buildings represents. This grouping of buildings, their designs, their color decoration, the application of sculpture on an opulent scale to set off buildings, loggias, colonnades, fountain basins, gateways, and esplanades really make up the exhibition. This is what is worth seeing, not only by day but by night, when the electric glow, outlining every detail blazes slowly into fiery lines and a new glory is given to the work of architect and artist.

Wigg—"Has Guzzler an eye for the artistic?" Wags—"Well, he has a fondness for painting the town red."

## Commanding Attention

There are several ways of getting attention.

You can attract it, draw it, plead for it, ask for it, and command it.

Which would you rather do with your printed announcement?

Everyone who makes things to sell or who does things for money, has something so say to the public.

The way that you say it is as important at least as what you say.

What you say is your part.

The way you say it is ours.

Printing that cannot be turned down, mislaid, sidetracked or overlooked is the kind we do.

It is distinguished printing—printing that not only may, but which must be seen—printing which doesn't simply ask, but

which demands and commands attention.

Are not these the characteristics you want in your printing? Then come in and talk to us about the next booklet, folder, circular or other business-bringing printing thing.

Greensboro, N. C.

## TAR HEEL COUGH SYRUP.

A wonderful cough remedy, made from pure tar from the pine regions of North Carolina. Positively cures coughs, colds in the chest or lungs, and incipient consumption. Always reliable. It is splendid for children, tastes good, doses are small. For sale by all druggists at 25 Cents. For Sale by Proximity Store Company.

## A SPRAINED ANKLE QUICKLY CURED.

"At one time I suffered from a severe sprain of the ankle," says George E. Cary, editor of the Guide, Washington, Va. "After using several well recommended medicines with out success, I tried Chamberlain's Pain Balm, and am pleased to say that relief came as soon as I began its use and a complete cure speedily followed." Sold by C. E. Holton, druggist.

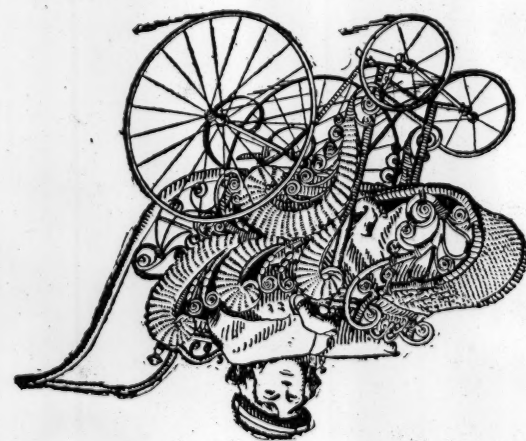

A GOOD COUGH MEDICINE. It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have sold Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my own family both for ordinary coughs and colds and for the cough following la grippe, and find it very efficacious." For sale by C. E. Holton, druggist.

## Weltmerism.

## New System of Drugless Healing.

If you suffer from any chronic disease, read this special offer. Prof. Gallaher, the well known exponent of "Weltmerism," the new system of drugless healing, has located in Greensboro and opened offices in the Southern Loan & Trust Building, Rooms 301-303 and in order to demonstrate quickly that he can and will cure all forms of chronic diseases and vicious habits, makes the following low rate. If you will call before June 22, 1901, you will receive free consultation and examination and can be treated for the small sum of \$5 per month. There will be no further expense connected with this treatment. You will be treated every day if necessary. Remember this offer \$5 per month, is good until June 22, only, after that date the regular rate of \$2 per treatment will be charged. An invitation to call and investigate. Rooms 301-303, Southern Loan & Trust Building.

C. M. Gallaher.

small size. Book all about dyspepsia mailed free  
Prepared by E. C. DEWITT & CO., Chicago.

For sale by Howard Gardner, Drug-  
gist, corner opposite Postoffice.

Mr. W. S. Whedon, cashier of the  
First National Bank of Winterest, Iowa,  
in recent letter gives some experiences  
with a carpenter in his employ, that  
will be of value to other mechanics.  
He says: "I had a carpenter working  
for me who was obliged to stop work  
for several days on account of being trou-  
bled with diarrhoea. I mentioned to  
him that I had been similarly troubled  
and that Chamberlain's Colic, Cholera  
and Diarrhoea Remedy had cured me.  
He bought a bottle of it from the  
druggist here and informed me that  
one dose cured him, and he is again  
at his work." For sale by C. E. Hol-  
ton, druggist.

### THE WEATHER.

afternoon from a visit to relatives in  
Memphis, Tenn.

Mr. Oliver Newlin went to his home  
in Alamance county this morning. He  
has been unwell for some time, and  
went home to recuperate.

Mr. W. A. Lemly and Hon. Spencer  
Blackburn, of Winston, passed through  
the city this morning on their return  
home from Washington.

Miss Linnie Davis, of Asheville, and  
Miss Myrtle Hines, of Mt. Airy, who  
have been visiting the family of Mrs.  
Mittie Ward, on Carr street, left last  
night for Asheville.

Mr. W. B. Stewart, of the postof-  
fice carrier force, who has been sick  
for several days, is recovered sufficient-  
ly to go into the country to spend a few  
days.

Mr. H. G. Reinicker, formerly with  
the Odel Hardware Company, but now  
residing in Baltimore, arrived last  
night and will spend several days in  
the city.

Mrs. B. H. Woodell and daughter,  
Miss Lula Woodell, of Raleigh, spent  
last night in the city. They former-  
ly lived in Greensboro and have many  
friends here.

### SHORT LOCALS.

One man was sent from the Greens-  
boro recruiting office this afternoon.  
He was sent to Columbus Barracks.

For the convenience of its numerous  
depositors among the laboring classes  
who cannot get to the bank during  
regular banking hours, the Peoples'  
Savings Bank will be open on Satur-  
day's from 4 to 7 o'clock p. m., for de-  
posits only. See change in ad, on 4th  
page.

### The Longest Day.

Today, June 21st, is what is known  
as the summer solstice. It is the long-  
est day in the year, and from this time  
the days will begin to grow shorter.

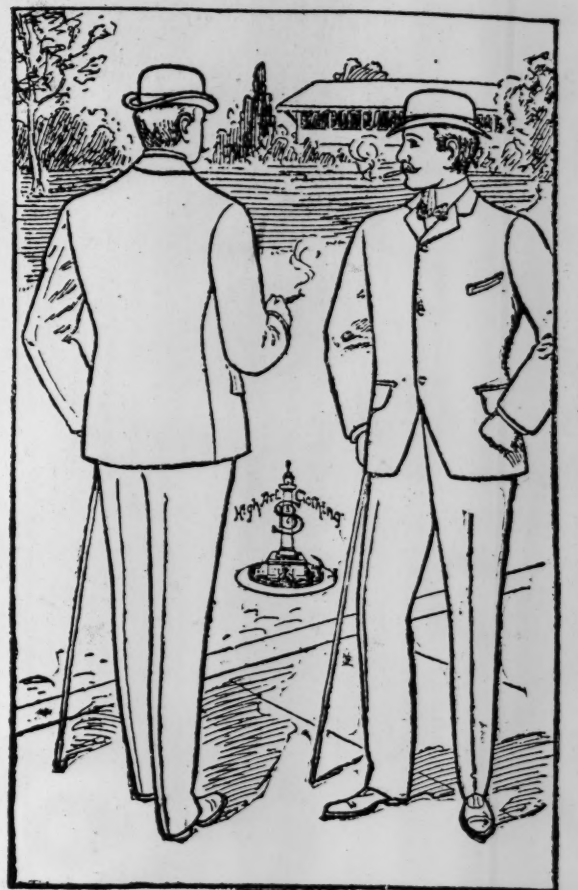

## How to Dress Well and Be Comfortable

has been a puz-  
zle in the minds of the pub-  
lic for these many years.  
We have at last solved the  
problem. Dress yourself up  
in one of our two piece

and you will be convinced  
that this long looked for  
combination is indeed a  
blessing to mankind. Up-  
to-date, pretty designs, well  
fitting, and comfortable in  
every respect, ranging in  
price from \$5.00 to \$10.00.

Call and give them a look.

## Vanstory Clothing Co.

ONE PRICE CASH CLOTHIERS.

## Palpi- tation,

fluttering or irregular pulsa-  
tions are an indication of weak-  
ness of the nerves or muscles  
of the heart. A weakness long  
continued produces deformity  
and organic disease. If your  
heart action is weak, make it  
strong. Build up the muscles  
and strengthen the nerves with  
the greatest of all heart reme-  
dies, Dr. Miles' Heart Cure.

"The least exertion or excite-  
ment caused my heart to throb  
and pound and I had smothering  
spells, pain and palpitation.  
Three bottles of Dr. Miles' Heart  
Cure overcame all these distur-  
bances and made me well."  
Mrs. J. A. Courts,  
Upper Sandusky, Ohio.

## Dr. Miles' Heart Cure

quiets the nervous heart, regu-  
lates its pulsations and builds  
up its strength as nothing else  
can. Sold by druggists on a  
guarantee.

Dr. Miles Medical Co., Elkhart, Ind.
